# Just the FAQ's

## Answers to Frequently Asked Questions (FAQ's):

### **Want to find more customers, sell more products, make more money?**

Get access to a powerful package to help you be more successful with your searching, prospecting, and marketing. Visit [www.CityDirectory.com](http://www.CityDirectory.com) for a FREE trial.

### **How are streets listed in the directory?**

The Street Guide lists streets in alphanumeric order with numbered streets appearing first.

Identical street names are listed alphabetically by town name. For example, 200 S Main St in Ann Arbor would appear before 200 S Main St in Chelsea.

Within a city, streets appear alphabetically beginning with the primary street name. For instance, Main St. will appear before E Main St which is before N Main St and so on.

### **How do you list streets that are referred to in more than one way?**

We adhere to postal service naming standards, so there will be instances where one side of the street has one name and the other side of the street has a different name.

### **What is a census tract?**

Census tract data allows a user to find population and housing statistics about a specific part of an urban area. They are shown in the directory, whenever available, in the Street Guide.

### **Are unlisted phone numbers in the directory?**

Unlisted phone numbers will not be provided. We respect the right of individuals to not have their phone number published. Furthermore, residents and businesses whose address information is unavailable *will not appear* in the Street Guide.

### **What if someone's mailing address is different than their physical address?**

We standardize each address with U.S. Postal Service standards and list the physical address in the directory. Rural route numbers can be obtained from the carrier route information. Post office boxes are only used when no other physical address is available.

### **Where does the demographic information come from?**

All demographic information is obtained from a variety of public and private data sources, including United States census figures. The information is adjusted quarterly based on several economic indicators.

# Street Guide

**The Street Guide  
will help you:**

**Pinpoint current customers or prospective new customers.**

This is a listing of addresses in your area including names, addresses, phone numbers, homeowners, multiple adults in household, years at residence, and new neighbors.

Cross streets help you identify the exact location of addresses you are looking for.

The street summary at the bottom of each street lets you know whether the street is primarily business or residential occupied.

# Picture This

While looking through the morning paper over breakfast, you notice the area real estate transactions have been included in today's edition. You grab a pad of paper and pen and begin transposing all of these New Homeowner's, as they are excellent prospects for your business. If only there were a way to capture these leads in a timelier manner and avoid the dreaded hand cramp that accompanies the manual, labor intensive collection of names.

## Picture This:

A web-based solution, which allows you 24/7 access to the most comprehensive business and consumer databases available today! Unlimited, Nationwide

search capabilities allow you to find New Homeowner's not only in your local area, but expanding areas as well!

Choose the location, the income levels and the home values that you find desirable in your ideal client, download your newly acquired leads and even add them to the contact management tool, included in your subscription.

This service allows you the opportunity to track your prospecting progress on your terms.

**Finding qualified prospects has never been easier!**

With a repeating billboard ad, your company will be noticed again and again as users thumb through the Polk City Directory. Your ad will repeat throughout the Alphabetical, Telephone Key and Street Guide Sections.

Your ad is highly visible as it can appear on the top of the page, or on the outside edge of a page...the choice is yours!

**DID YOU KNOW?**  
62% of all ideas are accepted only after they are presented for the 6th time. How do we know planned repetition works?

**Planned repetition worked in school:**  
Spelling - Reading - Multiplication Tables - Etc.

**Planned repetition worked at home:**  
Tying Shoes - Nursery Rhymes - Personal Habits - Etc.

**Use planned repetition for your business!**

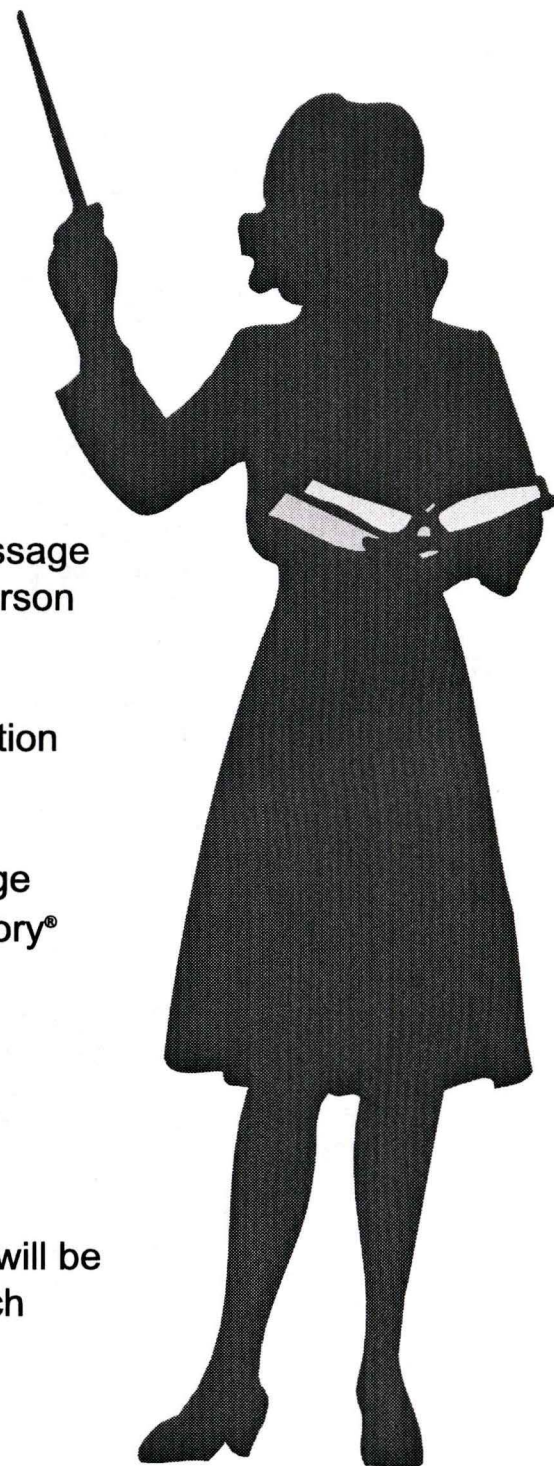

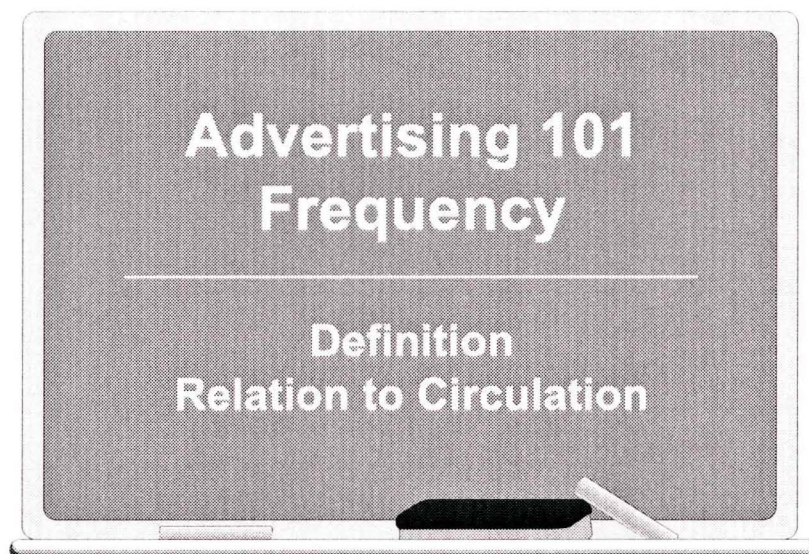

Without planned repetition, if you gave your idea to 100 people just one time...

**1 day later...25% would not recollect.**  
**2 days later...50% would not remember.**  
**4 days later...85% would not recall.**  
**7 days later...97% would have forgotten.**

The most effective Polk City Directory advertisers specify this popular service. Ask your Polk City Directories sales representative, or call us toll-free at (866) 467-7655 to find out how you too can take advantage of the selling power of repeating billboard ads.

# A little education about the circulation of the Polk City Directory®.

**FREQUENCY:** Defined as the number of times a message or advertisement receives exposure by an average person within a specified time period.

**THE TRUE VALUE** of advertising circulation is circulation consulted (Frequency).

**TO BE EXACT**, by actual survey in twenty-four average American cities, by actual count each Polk City Directory® averaged three and one-half consultations for each business day.

**TO BE CONSERVATIVE** we will eliminate the sixty Sundays and Holidays when no tests were made.

**FOR EVERY THOUSAND DIRECTORIES** sold there will be an average of three and one-half consultations for each book for three hundred and five days, therefore:

$$\begin{array}{r} 1000 \\ \times \quad 3 \frac{1}{2} \\ \times 305 \\ \hline = 1,067,500 \end{array}$$

**ANNUAL CONSULTATIONS OR

# How to use the Demographic Summary

## How can I find my best potential customers?

1. Establish the profile of your best potential customers.

**Individuals over 45 years old who have lived at the same residence for more than 15 years are most likely to buy my products.** (Illustration only. You determine profiles based on your needs.)

2. Find out which FIPS code/census tract best meet your potential customer profile by searching for these characteristics in the Demographic Overview tables.

Neighborhood Composition

FIPS Code	Census Tract	Total Business Count	Total Household Count	Total Person Count	Household Age	Percent Households w/Children	Median Age Adult 18 and Over	Median Length of Residence	% Length of Residence 0 - 5 Years	% Length of Residence 15+ Years

### **How are streets listed in the directory?**

The Street Guide lists streets in alphanumeric order with numbered streets appearing first.

Identical street names are listed alphabetically by town name. For example, 200 S Main St in Ann Arbor would appear before 200 S Main St in Chelsea.

Within a city, streets appear alphabetically beginning with the primary street name. For instance, Main St. will appear before E Main St which is before N Main St and so on.

### **How do you list streets that are referred to in more than one way?**

We adhere to postal service naming standards, so there will be instances where one side of the street has one name and the other side of the street has a different name.

### **What is a census tract?**

Census tract data allows a user to find population and housing statistics about a specific part of an urban area. They are shown in the directory, whenever available, in the Street Guide.

### **Are unlisted phone numbers in the directory?**

Unlisted phone numbers will not be provided. We respect the right of individuals to not have their phone number published. Furthermore, residents and businesses whose address information is unavailable *will not appear* in the Street Guide.

### **What if someone's mailing address is different than their physical address?**

We standardize each address with U.S. Postal Service standards and list the physical address in the directory. Rural route numbers can be obtained from the carrier route information. Post office boxes are only used when no other physical address is available.

### **Where does the demographic information come from?**

All demographic information is obtained from a variety of public and private data sources, including United States census figures. The information is adjusted quarterly based on several economic indicators.

# Glossary of Demographic Terms

Demography is the study of human populations, including size, growth, density, distribution, and vital statistics. This information can be helpful in deciding where to locate a business, determining what content to include in an advertising message, or determining the best neighborhoods for distribution of your print advertising.

**FIPS Code:** Federal Information Processing Standards Code created by the National Institute of Standards and Technology (NIST) for the identification of states and counties throughout the United States to ensure uniform identification.

**Census Tract:** A small statistical subdivision of a county. Census tract data allows a user to find population and housing statistics about a specific part of an urban area. This is particularly important when you want information about a part of a city. A single community may be composed of several census tracts.

**Total Business Count:** The total number of businesses in a group.

**Total Household Count:** The total number of households in a group.

**Total Person Count:** The total number of adults in a group.

**Household Age:** The age category of adults 18 and older, that occurs most frequently for residents in a group. Values are defined as follows:

<u>Value</u>	<u>Description</u>
Young	18 - 34 years
Middle	35 - 54 years
Older	55+
Unknown	Unknown

**Percent Households with Children:** Percent of households with children. If there are 1,000 households in a group and 55% have children, then 550 households in the group have children.

**Median Age Adults 18 and Over:** Median age of adults 18 years and older. Half of the ages in the group are greater than the median age and half less than it.

**Median Length of Residence:** Median length of residency. Half of the residency values are above the median value and half are less than it.

**% Length of Residence 0 - 5 Years:** Percent of households who have appeared at their current address for five years or less.

**% Length of Residence 15+ Years:** Percent of households who have appeared at their current address for fifteen years or longer.

**Average Estimated Income:** Average estimated income (in whole dollars). The average income estimate of adult residents, age 18 and older, in a group.

**Median Yrs School Age 25+:** The number of school years completed by that person 25 or older who falls in the middle when all persons 25 or older are ranked by number of school years completed.

**Professional, Technical or Managerial:** The percentage of all employed persons employed in a job classified as professional, technical or managerial.

**Median Household Income:** Half of the households in a group have an income greater than the median household income and half less than it.

# Glossary of Demographic Terms

~ continued ~

**% HH Inc \$15,000 - \$24,999:** Percentage households with income \$15,000 to \$24,999. If there are 1,000 households in a group and 20% have household income between \$15,000 to \$24,999, then 200 households have an income in this range.

**% HH Inc \$25,000 - \$34,999:** Percent households with income \$25,000 to \$34,999. If there are 1,000 households in a group and 5% have household incomes between \$25,000 and \$34,999, then 50 households have an income in this range.

**% HH Inc \$35,000 - \$49,999:** Percent households with income \$35,000 to \$49,999. If there are 1,000 households in a group and 5% have household incomes between \$35,000 and \$49,999, then 50 households have an income in this range.

**% HH Inc \$50,000 - \$75,000:** Percent households with income \$50,000 to \$75,000. If there are 1,000 households in a group and 5% have household incomes between \$50,000 and \$75,000, then 50 households have an income in this range.

**% Owner Occupied Housing:** Percent owner-occupied housing units. The percent of housing units in which the owner of the unit resides. If 75% of housing units in a group are owner-occupied, then the remaining 25% of the housing units in the group are renter occupied.

**% Single Family Dwelling:** Percent single-family dwelling units. The percentage of housing units in a group occupied by one family. If 75% of housing units in a group are single-family occupied, then the remaining 25% of the housing units are occupied by more than only one family.

**% Multi Family Dwelling:** Percent multi-family dwelling units. The percentage of housing units in a group occupied by more than one family. If 25% of housing units in a group are multi-family occupied, then the remaining 75% of the housing units are occupied by only one family.

**% Male Households Heads:** Percent households with a male listed as the head of the household.

**Median Home Value:** Median home value (in whole dollars). Half of the homes in a group have a value greater than the median home value, and half less than it.

**% Home Val 100K or more:** Percent of homes valued \$100,000 or more. The percentage of all homes in a group with a value equal to, or greater than \$100,000. If there are 1,000 homes in a group and 65% have a value of \$100,000 or more, then 650 homes in the group have a value of \$100,000 or more.

**% Home Val 200K or more:** Percent of homes valued \$200,000 or more. The percentage of all homes in a group with a value equal to, or greater than \$200,000. If there are 1,000 homes in a group and 20% have a value of \$200,000 or more, then 200 homes in the group have a value of \$200,000 or more.

**% Home Val 300K or more:** Percent of homes valued \$300,000 or more. The percentage of all homes in a group with a value equal to, or greater than \$300,000. If there are 1,000 homes in a group and 5% have a value of \$300,000 or more, then 50 homes in the group have a value of \$300,000 or more.

# A little education about the circulation of the Polk City Directory®.

**FREQUENCY:** Defined as the number of times a message or advertisement receives exposure by an average person within a specified time period.

**THE TRUE VALUE** of advertising circulation is circulation consulted (Frequency).

**TO BE EXACT**, by actual survey in twenty-four average American cities, by actual count each Polk City Directory® averaged three and one-half consultations for each business day.

**TO BE CONSERVATIVE** we will eliminate the sixty Sundays and Holidays when no tests were made.

**FOR EVERY THOUSAND DIRECTORIES** sold there will be an average of three and one-half consultations for each book for three hundred and five days, therefore:

$$\begin{array}{r} 1000 \\ \times \quad 3 \frac{1}{2} \\ \times \quad 305 \\ \hline = 1,067,500 \end{array}$$
